About Knowing Me Understanding You

The most important realisation in our journey of self-discovery is that there is no single formula that leads to the path to personal success.

Natural strengths and weaknesses, different goals and priorities all mean that different activities and attitudes will make us feel good about ourselves – define us as individuals and form part of our personalities.

This workshop has been designed to enhance your awareness of yourself by helping you identify your unique strengths and weaknesses.

Using the Myers Brigg Type Indicator (MBTI®), a questionnaire designed by Katherine Briggs and Isabel Briggs Myer and based on the work of Carl Jung you will be able to identify what is important to you, recognise your weaknesses without hiding behind them and strive for balance.

Building on this awareness, you will then learn to get in touch with that child within you and release negativity and fears that keep you stuck, using techniques based on the works of Richard Bandler & John Grinder, Louise Hay, Shakthi Gawain and others.

Have you ever wondered why you get along so well with some people, yet some others annoy you? Do you always assume that we all share the same goals, instincts, desires? Ever wondered if there was a practical way to understand our basic differences?

Learn to:

- Connect with that special person in your life —the only one who will always be with you till the end—YOU!!!
- Here's an opportunity to discover your personality type, using the Myers Brigg Type Indicator (MBTI®).
- Use this practical tool for achieving an understanding of the differences in others; gain an understanding of how we like to gather information, make decisions, derive our energy and deal with our environment.
- Enlarge & deepen your self-knowledge.
- Open new doors in work & social settings.
- Build better relationships.
- Improve communication ... and much more.....

This is an experience that will not just enlighten you but will excite and entertain you!!!
