Level 3A

About Reiki Level 3A

Reiki 3 follows the Reiki Level 2, and will lead to greater awareness and increase your ability to heal yourself and others. It will deepen your connection to your true and unlimited self and awaken unconditional love, which is the key to all healing.

Known traditionally as Shinpiden or “mystery teachings”, it is meant for Level 2 practitioners or those who have completed Reiki 2 and wish to continue their personal journey within the System of Reiki.

It is the first step towards becoming a Reiki Master but is also suitable for those who wish to simply develop their personal Reiki practice. One of the major focuses of this course is to tap into the sense that you are, and always were, a great, bright light. You will learn the techniques of a Master healer and will receive another two symbols that intensify the power of the Reiki and help to heal issues at a deeper, subconscious level

This two day course covers:

- A detailed review of the chakra system and how it can be used as a diagnostic aid
- Ways to develop your intuitive ability to read energy in each chakra
- Two more ancient healing symbols received by Dr. Usui
- The role and responsibilities of a healer
- Keys and tools for intensifying your healing energies and abilities
- Initiation

Students will receive:

- A comprehensive manual
- A certificate of completion
- Morning and afternoon tea will be provided.

This is your first step towards becoming a *Reiki Master*.
